(Social and Political Life)(Chapter - 3) (How the State Government Works)
(Class - 7)

Answer 4:

Public meeting	Affected people organised a meeting in which they reused their voice against the government. They had complains that the government failed to check diarrrhea. They demanded that the authorities must take immediate actions to bring the public health situation under control. They also made demands for safe drinking water.
Legislative Assembly	It discussed the problems of Patalpuram with the help of some of the MLAs. These MLAs addressed the Minister of Health and wanted to know what the government was doing to bring the outbreak of diarrrhea under control. They appealed to the Health Minister to make available clean drinking water sanitation of the locality for the sake of those who lived in that area.
Press conference	Different news reporters also raised the burning issue of deaths due to diarrrhea in Patalpuram. They also highlighted the various problems of the people of that area due to the acute crisis of water. The Health Minister organised a press conference in which he announced that his Government had directed all the Collectors and the Chief Medical Officers to take immediate action to bring the situation under control.
Chief Minister	The chief minister visited Patalpuram. He visited the families who had lost their relatives. He also visited people in the hospitals. He announced a compensation for these families. He requested the Minister for Public Works to take care of the needs of proper water supply in the region.

Question 5:

What is the difference between the work that MLAs do in the Assembly and the work done by government departments?

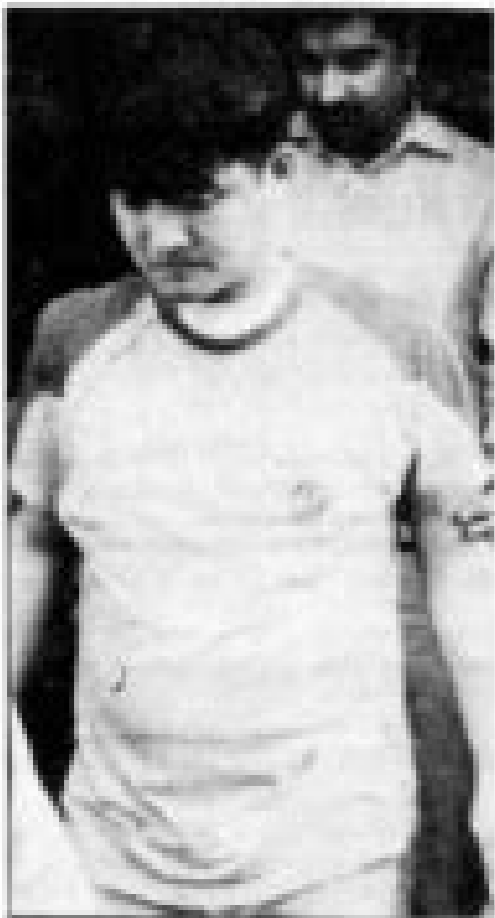

Answer 5:

MLAs take part in different debate or discussion on various issues. They ask questions to different ministers of related departments. Sometimes they raise issues in the Assembly and request the government to take measures as soon as possible.

The government departments take action and direct the officials to look into the matter of various issues and do the needful. They try to satisfy the MLAs who ask questions to them by giving proper answers. They assure the Assembly members that urgent steps will be taken to control the situation.

Nari Lepcha in custody after being arrested.

What pushed Lepcha off the edge?

Bottles of beer, a naked body, riddled with bullets, lying in the store. Three bodies on a charpoy and one under it. Blood splattered on the walls of the first floor of the Dena Bank cash chest in Daryaganj. What happened at the crime scene has shocked everyone; a sign of something grossly wrong with armed forces.

DCP (Central) Alek Kumar said Bishal Tiwari tried to sodomise Nari Lepcha, which led to a scuffle, prompting Lepcha open an indiscriminate firing. Lepcha then called the cops and belted himself in the bathroom to give an impression that it was he who was attacked.

Kumar said the presence of beer bottles is to be verified. The incident seems to have happened after they had their food. Around 10 rounds were fired.

The entire incident has stunned the security staff. The bank staff, which flew in from Mumbai, were also taken by surprise. Dena Bank chief security officer Colonel Ranvir Kumar Ahrol was one of the few to have been allowed into the place of the crime. "There was a lot of bloodshed. By the time I reached the spot, bodies had been removed". Such incidents are surely unheard of, he said.

Is it a sign of the level of sexual frustration in the armed forces? Psychiatrist Dr Rajat Mitra said people in the armed forces go through a lot of frustration and such incidents are very much there, if not rampant. Several such incidents have taken place. The constabulary in paramilitary forces is getting trigger-happy. A few months ago, a CRPF constable had killed five of his colleagues in Srinagar when they mocked at his sexuality.

What prompted Nari Lepcha to take this step? It is also being investigated if the premises of the cash chest were being used for gay orgies. Police is trying to identify all those who frequented the place. The autopsy report will throw more light.
